

DEPARTURE DIARIES

BBC

NORTHERN IRELAND

A new BBC NI observational documentary will explore the wave of emigration that has hit Northern Ireland since the recession. We are interested in speaking to people of all age groups who are considering leaving or who have already made plans to leave Northern Ireland – whether it's for a 'trial' year or a permanent move.

We would like to hear from anyone affected by emigration – whether you're a school leaver or graduate struggling to find work here, a family stung by redundancies and falling house prices, a couple separated by an ocean or a move for better pay – we want to hear your story.

If you would like more information or are interested in speaking with us please contact us ASAP:
